

SAMI SHAHID

Software Engineering | Full-Stack Developer | AI & Flutter Developer

Phone: +92 311 3070143 | Email: samishahid750@gmail.com

LinkedIn: [linkedin.com/in/samishahid-dev](https://www.linkedin.com/in/samishahid-dev) | GitHub: github.com/samishahid-dev

Address: Lahore, Punjab, Pakistan

PROFESSIONAL SUMMARY

Software Engineering graduate (2026) with hands-on experience developing web, mobile, desktop, and AI-powered applications. Experienced with Next.js, React, TypeScript, Flutter, Dart, Firebase, Python, OpenCV, and YOLOv8. Worked on real-world property technology applications involving Firebase Authentication, Firestore, Storage, Google Maps integration, responsive interfaces, property listing workflows, and production build troubleshooting. Strong foundation in full-stack development, mobile application development, computer vision, Git/GitHub workflows, and software engineering principles. Seeking a Software Engineer, Full-Stack, Flutter, or Frontend Developer role to contribute to production applications while continuing to grow professionally.

EDUCATION

BS Software Engineering

Sep 2022 - Jul 2026

Government College University, Faisalabad - Pakistan | Website: <https://gcuf.edu.pk/>

Major Courses: Data Structures & Algorithms | Object-Oriented Programming | Database Systems | Web Engineering | Artificial Intelligence | Software Design & Architecture | Software Construction & Development | Information Security | Operating Systems | Formal Methods in Software Engineering

PROFESSIONAL EXPERIENCE

Junior Software Developer

PlotVisitor – Property Technology Project | Lahore, Pakistan

Jun 2026 – Present

- Contributed to the development of the PlotVisitor property platform using Next.js, React, TypeScript, Tailwind CSS, and Firebase.
- Integrated Firebase Authentication, Cloud Firestore, and Firebase Storage for user accounts, property listings, and application data.
- Developed and debugged property listing workflows, account features, protected application areas, and responsive user interfaces.
- Integrated Google Maps functionality for property location selection and listing workflows.
- Resolved Next.js production build, TypeScript, Firebase, and deployment-related issues.
- Used Git and GitHub feature branches, commits, and pull requests to manage and deliver application changes.

KEY PROJECTS

PlotVisitor-Property Technology Platform

Aug 2026

Next.js · React · TypeScript · Tailwind CSS · Firebase · Google Maps

GitHub: <https://github.com/pvofficial-pk/plotvisitor-customer>

- Developed and enhanced property listing, account, authentication, and responsive frontend functionality for a property technology platform.
- Integrated Firebase services for authentication, database operations, file storage, and application data.
- Implemented Google Maps-based property location functionality and improved production-ready responsive interfaces.
- Debugged Next.js/TypeScript production build and deployment issues and managed changes through Git/GitHub feature branches and pull requests.

Expense Tracker Mobile Application

Jul 2026 - Aug 2026

Flutter · Dart · Firebase · Firestore

GitHub: <https://github.com/samishahid-dev/expense-tracker>

- Developed a Flutter-based expense tracking application using Dart with structured feature-based application architecture.
- Implemented expense and budget management functionality for tracking spending and available balances.
- Worked with Firebase/cloud services for persistent application data and synchronization.
- Implemented application controllers and notification-related functionality while maintaining code quality using Flutter analysis and formatting tools.

Smart Traffic Violation Detection System

Jan 2026 - Jul 2026

Python · OpenCV · YOLOv8 · PyQt5 · SQLite · ReportLab · NumPy

GitHub: github.com/samishahid-dev/Smart-Traffic-Violation-Detection-System

- Developed an AI-powered desktop application for automated, real-time traffic monitoring and violation detection.
- Applied YOLOv8 to detect helmet violations, signal-jumping, and wrong-way driving across multiple camera feeds simultaneously.
- Built a PyQt5 desktop interface with automatic evidence capture and SQLite-backed record management.
- Automated generation of traffic challans directly from detected violations, reducing manual reporting effort.

Pharmacy Billing System

Sep 2025 – Jan 2026

React · Tailwind CSS · Electron · JavaScript

- Built a cross-platform desktop billing application for pharmacies using Electron, React, and Tailwind CSS.
- Implemented medicine and inventory management with real-time stock tracking.
- Developed invoice generation and print-ready billing alongside sales reporting.
- Designed an intuitive interface to speed up day-to-day pharmacy checkout operations.

AI Fake News Detection System

Feb 2025 - May 2025

Python · Machine Learning · Scikit-learn · Flask · NewsAPI · HTML · CSS · JavaScript

GitHub: github.com/samishahid-dev/AI-News-App

- Built a machine learning model to classify news articles as real or fake using TF-IDF vectorization with Scikit-learn.
- Integrated NewsAPI to cross-check and verify news content in real time.
- Deployed the model through a Flask-based web application for fast predictions.
- Designed a responsive, user-friendly frontend for a smooth user experience.

TECHNICAL SKILLS

- **Programming Languages:** Python | JavaScript | TypeScript | Dart | SQL | HTML5 | CSS3
- **Web & Frontend Development:** React.js | Next.js | Tailwind CSS | Responsive Web Design | JavaScript (ES6) | TypeScript
- **Mobile Development:** Flutter | Dart | Android Application Development | Responsive Mobile UI
- **Backend, Database & Cloud:** Firebase Authentication | Cloud Firestore | Firebase Storage | Firebase Cloud Functions | Flask | SQLite
- **AI, ML & Computer Vision:** OpenCV | YOLOv8 | Scikit-learn | Machine Learning | Image Processing | Object Detection
- **Desktop Development:** PyQt5 | Electron | GUI Development | Report Lab
- **Tools & Platforms:** Git | GitHub | VS Code | NumPy | Android Studio | Chrome DevTools

SOFT SKILLS & LANGUAGES

- **Soft Skills:** Problem Solving | Communication | Team Collaboration | Time Management | Adaptability
- **Languages:** English (Fluent) | Urdu (Native)
